### San Bernardino County Flooding, San Bernardino County (Update)

#### **Update:**

- San Bernardino County Operational Area is activated at Level I Duty Officer status, due to the possibility of monsoonal moisture returning to the area during the next 24 hour period, which could affect areas already impacted by the August Severe Weather Incident.

On 08/03/14, the Southern Duty Officer (SDO) was notified by the California State Warning Center (CSWC) that San Bernardino County Operational Area (SBOA) emergency operations center (EOC) had activated at a Level I in support of the significant flood events for the following areas in San Bernardino County; Forest Falls, Mount Baldy, Oak Glen and Lytle Creek. Flash floods Sunday brought thick debris flows that cut off access to towns. Numerous residents in the San Bernardino Mountains were unable to get out because the roads were covered with mud, rock and debris. Per the SDO there are no unmet emergency management and access and functional needs (AFN) nor any requests for State assistance.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An upper level low off the central California coast will increase thunderstorm chances today into Monday. Thunderstorms may approach the redwood coast from the southeast this evening. Temperatures will remain slightly above normal across the interior with near normal temperatures at the coast into early next week.

#### **San Francisco Weather:**

Temperatures will remain near or slightly below seasonal averages through early next week with generally dry weather conditions. A slight warming trend is then expected for the latter half of the work week.

### CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

#### **Sacramento Weather:**

Thunderstorms are possible over the mountains the next several afternoons. Potentially more widespread thunderstorms Monday and Tuesday including valley locations. Temperatures to remain near normal through the week.

#### **Hanford Weather:**

Temperatures will remain a little above normal over the weekend then lower slightly into early next week. Thunderstorms will be possible over the entire area beginning early Monday morning and continuing into early Tuesday morning. After Tuesday morning thunderstorm chances shift to the Sierra Crest.

# WEATHER

## WEATHER SYNOPSIS BY REGION: (Cont.)

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Night through morning low clouds and fog will continue into next week for much of the coastal plain and some valleys due to weak upper level low pressure off the California coast. Temperatures will remain near normal for the week ahead. There will be a slight chance for some monsoonal thunderstorms in eastern Los Angeles County early next week.

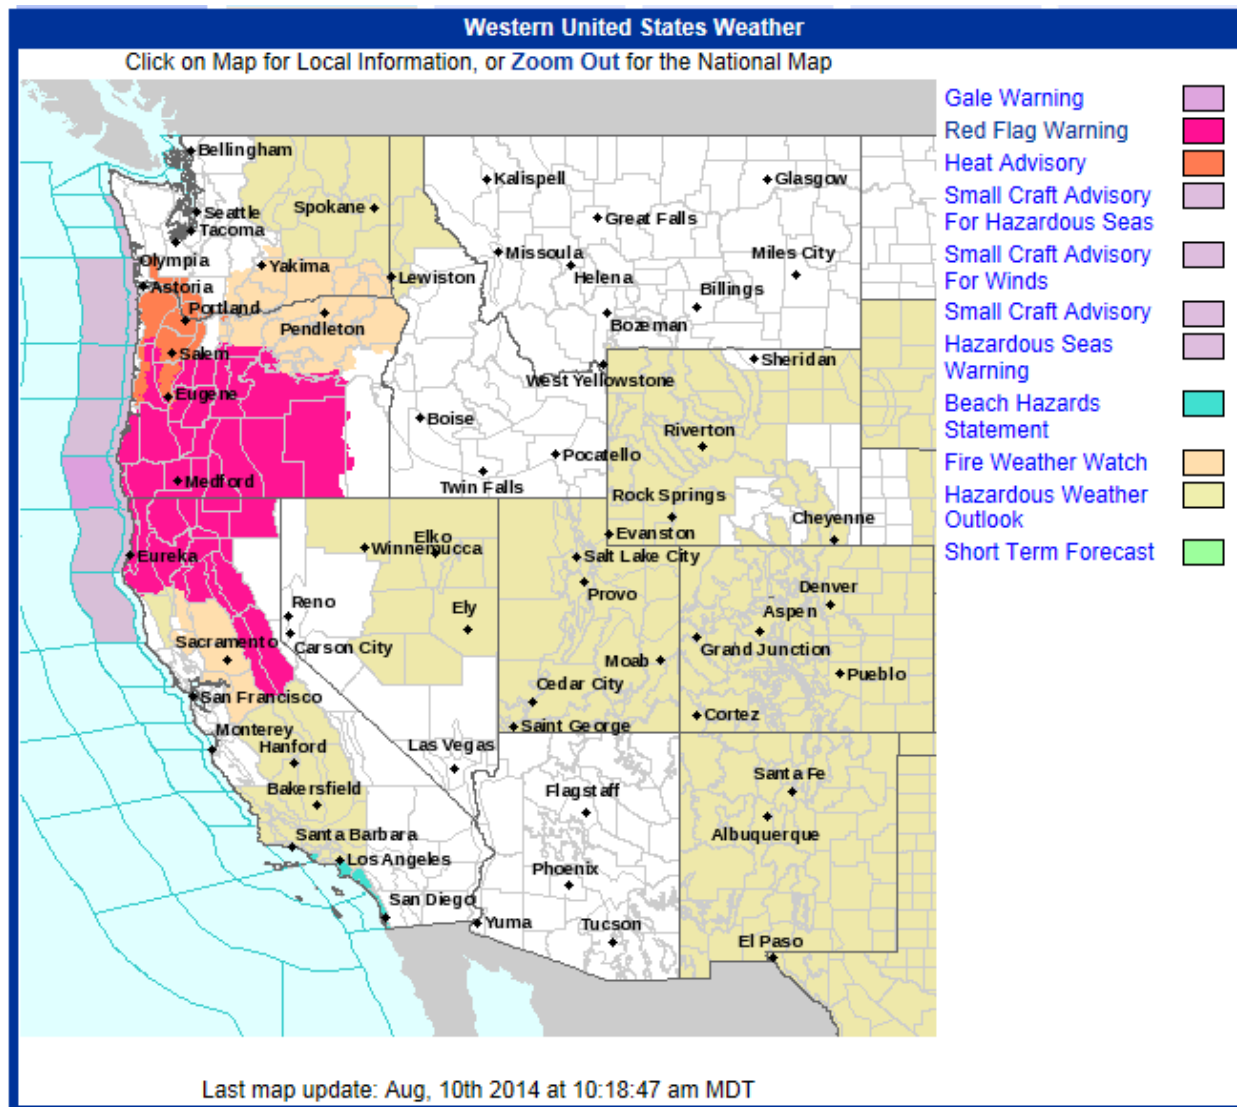

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Monsoonal moisture will bring a slight chance of afternoon and early evening thunderstorms to the mountains and deserts for Monday and Tuesday. Otherwise, dry weather with seasonal temperatures for the next week. Night and morning coastal low clouds and fog will be somewhat patchy the next few days with greater coverage later in the week.

#### **Southeast California Weather:**

Moisture levels will continue to swing upwards and improve chances for monsoon rain through the middle of the week in the afternoons and early evenings. Temperatures will remain near normal levels. Drier conditions expected beginning Thursday as westerly flow pushes back over the region.

# **SOUTHERN CALIFORNIA SIGNIFICANT ACTIVITY**

## **San Bernardino County Flooding, San Bernardino County (Update)**

- San Bernardino County Operational Area is activated at Level I Duty Officer status, due to the possibility of monsoonal moisture returning to the area during the next 24 hour period, which could affect areas already impacted by the August Severe Weather Incident.

The San Bernardino County Fire Department continues to conduct damage assessments. Cal OES Regional Administrators, Cal OES Recovery Unit Representatives, and the OA EOC Liaison conducted site visits to validate Initial Damage Estimates (IDE's) 08/06 through 8/08. The San Bernardino County Operational Area Emergency Operations Center (EOC) remains activated at Level I in support of field operations, volunteer operations, and recovery activities for the affected areas.

Background: On August 3, 2014, the Southern Duty Officer (SDO) was notified by the California State Warning Center (CSWC) that San Bernardino County Operational Area (SBOA) emergency operations center (EOC) had activated at a Level I in support of the significant flood events for the following areas in San Bernardino County; Forest Falls, Mount Baldy, Oak Glen and Lytle Creek. Flash floods Sunday brought thick debris flows that cut off access to towns. Numerous residents in the San Bernardino Mountains were unable to get out because the roads were covered with mud, rock and debris. Per the SDO there are no unmet emergency management and access and functional needs (AFN) nor any requests for State assistance.

### **Damages:**

- The San Bernardino County EOC has not finalized damage assessments.
- The San Bernardino Countywide Initial Damage Estimate is approaching \$11 million.
- The Bureau of Indian Affairs (BIA) Pacific Regional office is collecting data on any damages sustained by the recent flood events throughout the state from Tribal partners. San Manuel Tribe is working on an IDE for unspecified residential and construction project damage.

### **Forest Falls**

- The San Bernardino County EOC continues to conduct damage assessments; to date, 6 residences have been damaged in Forest Falls.

### **Redlands**

- Westbound Redlands Boulevard is closed at California Street due to an a 10' x 10' sinkhole

### **Mount Baldy**

- The San Bernardino County EOC continues to conduct damage assessments; to date, 19 homes have been damaged or destroyed in Mt. Baldy.

# **SOUTHERN CALIFORNIA SIGNIFICANT ACTIVITY**

## **San Bernardino County Flooding, San Bernardino County Cont. (Update)**

### **Activations**

- San Bernardino County Operation Area EOC is activated at Level 1.
- Cal OES Southern Region is activated at level 1.

### **Proclamations:**

- 08/04/2014 - San Bernardino County.
- 08/04/2014 - City of Barstow.
- 08/06/ 2014- City of Highland.

Per the San Bernardino County Duty Officer, there are no unmet emergency management, or access and functional needs (AFN) issues, nor any requests for State assistance.

The Cal OES Southern Region Duty Officer continues to monitor the situation and provide updates.

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

## Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 7<sup>th</sup> : Don Pedro 43%; Exchequer 19%; Folsom Lake 41%; Lake Oroville 34%; Millerton Lake 51%; New Melones 25%; Pine Flat 12%; San Luis 21%; Lake Shasta 33%; Trinity Lake 34%; Pyramid Lake 93%; and Castaic Lake 47%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water<sup>1</sup> to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

## Situational Summary

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.
